

ARTISTS UNITED INTERNATIONAL

What Is A Prophetic Voice?

(May 4, 2004)

In God's Word, people were anointed with a prophetic spirit not only to speak like John the Baptist or to say "thus saith the Lord," but also to sing, dance, and play on instruments through God's prophetic spirit. Novices were given divine inspiration and ability by the prophetic spirit to make exquisite artifacts for the tabernacle. No formal or informal training was involved. This was God's prophetic voice in the earth. God is still speaking and wants to speak more not only through his greatest gift to mankind, his Word, but also through the arts and its artists -- artists who will yield themselves to something greater than selfish ambition and temporary recognition.

This is the heart and desire of Artists United International -- to support these artists in fulfilling their prophetic destiny, to glorify the Creator as vessels in his artistic hand through his gifts to mankind, the arts and entertainment, as his prophetic voice.
