

Unusual Miracles (Part 2) - A Dramatic Healing from Gangrene

(February 23, 2013)

When my wife's grandmother was in her seventies she received a prophetic word from the Lord that no physician's scalpel should come near her body.

Shortly after that prophecy had been given, she developed gangrene in her leg due to a blood clot. The recommendation by the medical professional was to amputate the leg as soon as possible, in order to save her life.

I received a call from the family who asked me to pray for her in person. I replied that I would pray and fast until the Lord showed me what he would have me do.

Three days later, the Lord called on me and instructed me to go and minister healing to my wife's grandmother.

When we arrived at the house and were standing in the livingroom, the Lord told me to form a circle with the family members who were present, and to pray in unity for the leading of the Spirit of God. After a time of prayer, the Spirit told me to tell her to act on her faith and stomp her foot as hard as she could, three times onto the floor.

At the time, and because of the pain, she did not have the faith to act on that word in full. I then asked the Lord to show me if there was anything that I could do to help her faith. The Lord then opened my spiritual eyes to see the evil spirit that was attached to her leg, affecting her blood circulation and causing the gangrene.

When I asked her for her permission to minister healing to her leg, my heart was filled with compassion for her while at the same time anger against the devil. She answered, "Yes!" Again, I could see the spirit of the enemy like a snake wrapped around her leg. The Lord quickened to me the scripture from Mark 16, "***They shall take up serpents.***"

I squeezed her leg as hard as I could with my hands, and as I did, I could feel that the demon was loosening its grip from around her leg. However, in the natural, it looked quite gruesome since her foot and leg which were already purple from the gangrene, were now also starting to bleed profusely.

I was wearing a white shirt at the time, and when I looked at it, it was covered with red blood stains. The pain from my "anointed" squeeze also caused grandmother to cry out excruciatingly.

I felt absolutely horrible as Satan was attempting to place me on a guilt trip, making me look as if I was hurting grandmother instead of healing her. Again, the Lord came to my aid as I spoke by His Spirit and said, "***The proof of this being the work of the Lord Jesus is that this leg will tomorrow be totally back to normal.***"

The next day we received a phone call from grandmother. She reported that she was up and walking. Her leg was totally and completely back to normal, healed by the precious power of God. Hallelujah!
