

## 6 Prophetic Words For Västerås

(June/July 2003 and February 2004)

### **Vision June-July 2003**

I saw Västerås and saw fire falling from heaven over the entire city. After the fire had fallen, there came a cloud of God's glory. The cloud then began to seep into the buildings. People began to come out of the buildings and began to fill the churches.

### **Vision/Word June-July 2003**

Out of the broken vessels and ashes came the glory of God. Restoration came as the consequence of the glory of God. ( Last chapter of Job.)

#### *Interpretation*

Broken vessels symbolize lack but also the broken human spirit. The ashes are symbolic of devastation but also humility. God turned Job's captivity and poverty into liberty and abundance.

### **Dream June-July 2003**

God called the churches to have 2 united meetings. In the first meeting, there were not many people. The atmosphere was filled with resistance. Some people thought that it was a failure. The second meeting was filled to capacity and the Spirit of God was moving strongly among the people.

### **Dream June-July 2003**

There was a train standing at the train station in Västerås. There were many people walking around on the platform. Suddenly the Spirit of God spoke prophetically that the train was about to start moving and depart. He spoke this 2 times. The third time He cried it out urgently. After the third time, some people began to get onto the train as it started to move. Then many more people tried to jump onto the train which was now leaving the station.

#### *Interpretation*

The train is symbolic of the move of the Spirit. God is saying He is about to move and is calling His people to get onto the train before it leaves. God has a specific time when He moves. We must respond to this when it happens. (Time of visitation.)

### **Dream June-July 2003**

I saw the spiritual authority structure over Västerås. God was calling His people to return to His apostolic and prophetic order. As they did so, the church began to rule in the spiritual realm over the city. Many people were set free, saved, and healed as the Spirit of God filled the city.

### **Word February 2004**

Practice flowing in the Spirit and you will see a move of the Spirit.

-Roger Wågsjö
