

Prophetic dream given to Consuelo Wågsjö for the Finnish people.

(February 19, 2011)

Dream:

I saw two pots of cactus. One was in front of the other; the one in front had withered, disintegrated, and died.

The second cactus which was positioned behind had also withered, except for a few remaining little green stems (remnant).

I then saw a big building. It was the Finnish Embassy and inside the office there was a big black Iron Gate (like the one which can be seen from outside the Embassy at its entrance). The gate was wide open. There was a very warm and strong light shining from heaven, which filled the inside of the office (the glory of the Lord).

Interpretation:

The cactus in the first pot symbolizes the pains and struggles of life under dry conditions. The second cactus was transplanted into a different soil. The cactus part dried up quickly and died; and produced out from that second pot were several beautiful green stems which were from a different plant (God's remnant).

The opened Iron Gate inside the office of the Finnish Embassy represents the Door that God has opened for the Finnish people, to enter into His presence.

The light represents the Glory of God that comes from Heaven, His blessings.

Psalms 118: 5- 29 speaks of this dream.

Pray with all your hearts, and it will happen.

-Consuelo Wågsjö
