Prophetic Word of Warning to the Body of the Messiah in America and Israel

(October 21, 2017)

The Lord says that through the U.S. election of President Trump, He has given the Body of Christ in America and Israel a time of respite from her enemies, for a season. He also says to use this time of prosperity and favor to seek His presence, and not only seek His blessings. Because after this season there will come another season of darkness and severe persecution against the Body of Christ, the Jews, and the state of Israel.
